

FUEL TANK STRAPS

FEATURES

- Secure Non-Slip Fit to Reduce Vibration & Protect the Tank
- C-Channel Design for Ease of Installation
- Abrasion & Wear Resistance
- Oil & Fuel Resistance to Ensure the Strap Doesn't Degrade From Exposure
- High Heat & Weather Resistance Including Resistance to Extreme Temperatures & UV Exposure
- Durable and Designed for Long-Lasting Use

TECHNICAL SPECIFICATIONS

Materials	NBR Rubber
Fuel/Oil Resistant	Yes
Hardness	70±5 Shore A (Other hardness feasible)
Tensile Strength	Min 100 Kgf/cm ²
Elongation at Break	Min 150%
